

**Linux Server Hosting Package Comparison, March 2010**

**Windows Server Hosting packages are similar but have less CGI scripts and only two MySQL databases. Unless you have a specific reason to use the Windows Server, Linux packages offer better value for money.**

| <b>Package Name</b>                               | <b>Cool</b> | <b>Hot</b> | <b>Extreme Pro</b> | <b>Unlimited</b> |
|---|-------------|------------|--------------------|------------------|
| Monthly Price                                     | £2.50       | £8.50      | £10.50             |                  |
| Monthly Package Setup Fee                         | £2.50       | £8.50      | £10.50             |                  |
| Equivalent Cost Per Month of Annual Package       | £2.08       | £6.67      | £8.33              | £10.00           |
| Price Per Year of Annually Paid Package           | £24.99      | £79.99     | £99.99             | £120.00          |
| Annually Paid Package Setup Fee                   | Free        | Free       | Free               | Free             |
| Web Space   | 5,000MB     | 20,000MB   | 50,000MB           | Unlimited        |
| Bandwidth   | 30,000MB    | 60,000MB   | 100,000MB          | Unlimited        |
| Sub Domains                                       | 10          | 1,000      | 10,000             | Unlimited        |
| Additional FTP Logins                             | 1           | 10,000     | 20,000             | Unlimited        |
| MySQL Databases (Linux Hosting)                   |             | 200        | 2,000              | Unlimited        |
| MySQL Databases (Windows Hosting)                 |             | 2          | 2                  | 2                |
| Email Forwarding                                  | 2,000       | 20,000     | 50,000             | Unlimited        |
| Email Autoresponders                              | 1,000       | 20,000     | 50,000             | Unlimited        |
| Email Mailing Lists                               | 2,000       | 20,000     | 50,000             | Unlimited        |
| Mail Boxes  | 2,000       | 20,000     | 50,000             | Unlimited        |
| Support Database                                  | Yes         | Yes        | Yes                | Yes              |
| Free Domain                                       | Yes         | Yes        | Yes                | Yes              |
| <b>General Features</b>                           |             |            |                    |                  |
| Website Builder                                   | Yes         | Yes        | Yes                | Yes              |
| File Manager                                      | Yes         | Yes        | Yes                | Yes              |
| Display Account Summary                           | Yes         | Yes        | Yes                | Yes              |
| Display Web Server Information                    | Yes         | Yes        | Yes                | Yes              |
| Free Internet Access                              | Yes         | Yes        | Yes                | Yes              |
| <b>Email Configuration</b>                        |             |            |                    |                  |
| Catch All Email Forwarding                        | Yes         | Yes        | Yes                | Yes              |
| Email Filter Logs                                 | Yes         | Yes        | Yes                | Yes              |
| Junk Mail Filters                                 | Yes         | Yes        | Yes                | Yes              |
| Email Summary                                     | Yes         | Yes        | Yes                | Yes              |
| Webmail   | Yes         | Yes        | Yes                | Yes              |
| <b>Account Utilities</b>                          |             |            |                    |                  |
